

GREAT INDIAN TIGER SAFARI

9 Nights / 10 Days

This wildlife tour covering three spectacular parks of central highlands – Tadoba, Kanha & Bandhavgarh – is ideal for a wildlife enthusiast focusing on the Tiger. While Tadoba is primarily a Teak & Bamboo forest popular for Tigers & Leopards, Kanha's undulating landscape is dotted with dense groves of vegetation, hillocks and meadows. Bandhavgarh vegetation is chiefly of Sal forest in the valleys and on the lower slopes, gradually changing to mixed deciduous forest on the hills and in the hotter drier areas of the park in the south and west. Trip also gives the opportunity to view other mammals like Swamp Deer, Indian Gaur, Wild Dogs, Sloth Bear and an array of other mammals and birds.

This itinerary is designed to give you a glimpse of the finest Tiger Reserves of Central India.
