

## TRAVEL

### safaris

**PUGDUNDEE SAFARIS**, with its chain of exotic jungle lodges in Madhya Pradesh, takes you through a breathtaking and awe-inspiring jungle experience. Set deep within the incredible expanses of the wild, each of the lodges offers a fair share of adventure, fun, surprise, and tranquillity. They also minimise environmental and ecological impact, use 'green' products and conserve energy.

Run by nature enthusiasts Shyamendra Singh and Manav Khanduja, along with a team of naturalists, nature guides, boatmen and trackers, the safaris take you through jungle expeditions in central India in jeeps and on elephants. A small dedicated Conservation Cell has also been set up by Pugdundee Safaris, with an aim to engage in action-based wildlife and issues of the

local people. The Cell develops programmes that directly involve the locals and benefit them.
